

# BROWNING CITORI<sup>®</sup> 625 OVER AND UNDER

Be prepared for the Citori 625 to redefine future over and under shotgun performance. New VectorPro™ lengthened forcing cone technology coupled with Invector-Plus™ Diamond Grade choke tubes maximize ballistic performance. Its perfect balance naturally leads to precise pointability. Ported, back-bored barrels reduce felt recoil, making the Citori 625 a shotgun you can shoot all day. With the strength of a full-width hinge pin and tapered locking bolt, it will last a lifetime. Performance is only part of the story. Tasteful engraving adorns the machined steel receiver, fitted flawlessly to sculpted walnut, making the Citori 625 the most magnificently finished over and under ever.
